The Busara Center for Behavioral Economics

The **Busara Center for Behavioral Economics** is a behavioral research and advisory firm that works to identify core behavioral biases and structure programs, products and policies around these barriers. Our mission is to work with researchers and organizations to advance and apply behavioral science in pursuit of poverty alleviation.

The document outline best practices on using Busara's server for data storage and analysis.

Chapter 1

Introduction to the Server

This chapter will include all hardware and software specifications of the server.

Chapter 2

Acessing the Server

This chapter will include specifics on how to access the server. It will contain rules and a recommended directory structure.

Chapter 3

R on the Server

In this chapter we will cover instructions specific to using R on the server.

Chapter 4

STATA on the Server

In this chapter we will cover how to use STATA on the server.
